Reproductive Endocrinology and Infertility

REI1	Foundational Reproductive Endocrinology	Primary Category
REI1.1	Hormone Structure and Function	Subcategory
REI1.1.A	Demonstrate knowledge of hormone mechanisms of action	Task Statement
REI1.1.B	Demonstrate knowledge of metabolism of reproductive hormones	Task Statement
TILIT.I.B	Betholicate knowledge of metabotism of reproductive normalises	radk dtatement
REI1.2	Basic Pharmacology	Subcategory
REI1.2.A	Demonstrate knowledge of pharmacodynamics of reproductive hormones	Task Statement
REI1.2.B	Demonstrate knowledge of pharmacokinetics of reproductive hormones	Task Statement
DEI1 0 C	Demonstrate knowledge of mechanisms of action and side effects of medications used for treatment of reproductive	Took Statement
REI1.2.C	endocrine disorders, infertility, and gender-affirming care	Task Statement
REI1.3	Laboratory Assays	Subcategory
		3 ,
REI1.3.A	Demonstrate knowledge of, interpret, and provide counseling/consultation on endocrine and immune assays,	Task Statement
	including molecular techniques and special considerations (eg, hook effect and heterophile antibodies)	
REI2	Reproductive Endocrine Function and Disease	Primary Category
REI2.1	Reproductive Physiology Across the Lifespan	Subcategory
REI2.1.A	Evaluate, diagnose, manage, and provide counseling/consultation on abnormal puberty based on understanding of	Task Statement
DEIO 4 D	physiology of normal puberty	T1-04-4
REI2.1.B	Demonstrate knowledge of the neuroendocrine control of the menstrual cycle	Task Statement
REI2.1.C	Evaluate, diagnose, manage, and provide counseling/consultation on menopausal transition and postmenopause and its sequelae	Task Statement
REI2.1.D	Evaluate, diagnose, manage, and provide counseling/consultation on abnormal menopause (eg, primary ovarian	Task Statement
NEIZ.1.D	insufficiency, early, surgical)	rask statement
DEIO O	Newson descripe Diseases	0
REI2.2	Neuroendocrine Disorders Figure 4 diagnose, manage, and provide counceling/consultation on disorders of CNRU and genedation in correction.	Subcategory
REI2.2.A	Evaluate, diagnose, manage, and provide counseling/consultation on disorders of GNRH and gonadotropin secretion and action	Task Statement
REI2.2.B	Evaluate, diagnose, manage, and provide counseling/consultation on prolactin disorders	Task Statement
REI2.2.C	Evaluate, diagnose, manage, and provide counseling/consultation on other pituitary hormones (eg, growth hormone,	Task Statement
	ACTH, TSH, oxytocin, vasopressin)	
REI2.3	Thyroid Disorders	Subcategory
	Evaluate, diagnose, manage, and provide counseling/consultation on thyroid disorders in the context of reproductive	
REI2.3.A	physiology	Task Statement
REI2.4	Endometrial Physiology and Abnormal Uterine Bleeding	Subcategory
REI2.4.A	Demonstrate knowledge of the normal endometrial response to reproductive hormones	Task Statement
REI2.4.B	Evaluate, diagnose, manage, and provide counseling/consultation on the endocrine causes of abnormal uterine	Task Statement
	bleeding, including amenorrhea	
REI2.5	Ovarian and Adrenal Disorders (Idiopathic and latrogenic)	Subcategory
REI2.5.A	Evaluate, diagnose, manage, and provide counseling/consultation on health consequences of PCOS	Task Statement
REI2.5.B	Evaluate, diagnose, manage, and provide counseling/consultation on hyperandrogenism	Task Statement
REI2.5.C	Evaluate, diagnose, manage, and provide counseling/consultation on virilization	Task Statement
	Demonstrate knowledge of the role and interpretation of provocative testing in the evaluation of adrenal disorders (eg,	
REI2.5.D	ACTH stimulation, dexamethasone suppression)	Task Statement
REI3	Conception and Pregnancy: Physiology and Pathology	Primary Category
REI3.1	Gamete Biology	Subcategory
REI3.1.A	Demonstrate knowledge of oogenesis, spermatogenesis, and folliculogenesis	Task Statement
REI3.1.B	Demonstrate knowledge of the key events of fertilization	Task Statement
DEI2 2	Early Embryo Davolonment	Cubaataga
REI3.2	Early Embryo Development	Subcategory

REI3.2.A	Demonstrate knowledge of the physiology and chronology of preimplantation embryo development	Task Statement
REI3.2.B	Demonstrate knowledge of the physiology and chronology of implantation, including disorders of implantation	Task Statement
REI3.2.C	Evaluate, diagnose, manage, and provide counseling/consultation on disorders of embryogenesis (eg, gonad [ovary,	Task Statement
	testes, ovotestes], DSD)	
REI3.2.D	Demonstrate knowledge of and provide counseling/consultation on the risks of potential teratogens	Task Statement

REI3.3	Endocrinology of Pregnancy	Subcategory
REI3.3.A	Demonstrate knowledge of the endocrinology of the placenta and the maternal-fetal unit	Task Statement
REI3.3.B	Evaluate, diagnose, manage, and provide counseling/consultation on endocrine disorders in pregnancy (eg, thyroid,	Task Statement
	hyperandrogenism, diabetes, hyperemesis)	. Task statement

REI3.4	Early Pregnancy	Subcategory
REI3.4.A	Evaluate, diagnose, manage, and provide counseling/consultation on complications of early pregnancy (eg, pregnancy	Task Statement
NEI3.4.A	of unknown location/ectopic/heterotopic/multifetal gestation)	
DEIO 4 D	Evaluate, diagnose, manage, and provide counseling/consultation on early pregnancy loss and its complications (eg,	Took Statement
REI3.4.B	retained tissue, endometritis, molar pregnancy, perforation, Asherman syndrome)	Task Statement
REI3.4.C	Demonstrate knowledge of and provide counseling/consultation on genetic analysis of products of conception tissue,	Task Statement
	including advantages and limitations	rask statement

REI3.5	Recurrent Pregnancy Loss	Subcategory
REI3.5.A	Evaluate, diagnose, manage, and provide counseling/consultation on recurrent pregnancy loss, including causes of euploid and aneuploid pregnancy loss (eg, contribution of endocrine factors, immunologic factors, anatomic factors, genetic factors, relative incidence of each)	Task Statement
REI3.5.B	Demonstrate knowledge of and provide counseling/consultation on advantages and limitations of preimplantation genetic testing for abnormal parental karyotypes and unexplained recurrent pregnancy loss	Task Statement
REI3.5.C	Demonstrate knowledge of and provide counseling/consultation on the indications for supplemental progesterone, thyroid hormone supplementation, aspirin, heparin, and other available medical therapies for recurrent pregnancy loss	Task Statement

REI4	Fertility and Infertility	Primary Category
REI4.1	Female Fertility and Infertility	Subcategory
REI4.1.A	Demonstrate knowledge of the components of a comprehensive history and physical examination in the evaluation and management of reproductive disorders	Task Statement
REI4.1.B	Demonstrate knowledge of and provide counseling/consultation on contraceptive options and relevant mechanisms of action	Task Statement
REI4.1.C	Demonstrate knowledge of and provide counseling/consultation on preconception counseling (eg, reproductive aging, screenings, exposures, medical comorbidities, vaccinations, vitamins, supplements, lifestyle)	Task Statement
REI4.1.D	Demonstrate knowledge of the appropriate selection of diagnostic testing for female infertility, and interpret and provide counseling/consultation on the results (eg, ovarian reserve testing, ovulatory function, hysterosalpingography, HyCoSy, pelvic ultrasonography, MRI, hysterosonography, laparoscopy)	Task Statement
REI4.1.E	Demonstrate knowledge of and provide counseling/consultation on female fertility treatment options and success rates in the context of various infertility diagnoses (eg, ovulation induction, tubal anastomosis, tuboplasty, controlled ovarian stimulation, intrauterine insemination, ART)	Task Statement
REI4.1.F	Demonstrate knowledge of and provide counseling/consultation on long-term health and pregnancy risks of female infertility and fertility treatments (eg, multifetal pregnancy, OHSS, ovarian torsion, ectopic pregnancy)	Task Statement

REI4.2	Male Infertility	Subcategory
REI4.2.A	Demonstrate knowledge of the components of a comprehensive history in the evaluation of male infertility	Task Statement
	Demonstrate knowledge of the appropriate selection of diagnostic testing for male infertility, and interpret and	
REI4.2.B	provide counseling/consultation on the results (eg, semen analysis, DNA fragmentation, postejaculatory urinanalysis,	Task Statement
	hormonal testing, genetic testing)	

REI4.2.C	Diagnose, differentiate, and provide counseling/consultation on different types of male infertility (eg, endocrine, genetic, and systemic disorders, primary testicular defects in spermatogenesis, sperm transport disorders, idiopathic male infertility)	Task Statement
REI4.2.D	Demonstrate knowledge of and provide counseling/consultation on efficacy, risks, and benefits of nonsurgical treatments for oligospermia (eg, clomiphene citrate, human chorionic gonadotropin, letrozole, supplements)	Task Statement
REI4.2.E	Demonstrate knowledge of, recognize indications for, and provide counseling/consultation on surgical management of male infertility (eg, sperm extraction techniques, vasectomy reversal, varicocele repair)	Task Statement
REI4.2.F	Demonstrate knowledge of and provide counseling/consultation on nonoperative management options for male infertility (eg, intracytoplasmic sperm injection, IUI, donor sperm)	Task Statement

REI4.3	Fertility Treatment: Special Considerations	Subcategory
REI4.3.A	Demonstrate knowledge of and provide counseling/consultation on third-party reproductive options (eg, donor gametes/embryos, gestational carrier, regulatory requirements, legal considerations)	Task Statement
REI4.3.B	Demonstrate knowledge of and provide counseling/consultation on LGBTQIA family-building options and care	Task Statement
REI4.3.C	Demonstrate knowledge of, manage, and provide counseling/consultation on fertility treatment in the context of complex medical conditions and gender-affirming care (eg, obesity, hematologic disorders, immunologic disorders)	Task Statement
REI4.3.D	Evaluate, diagnose, manage, and provide counseling/consultation for patients experiencing early pregnancy loss	Task Statement

REI4.4	Assisted Reproductive Technology (ART) Techniques	Subcategory
REI4.4.A	Demonstrate knowledge of and provide counseling/consultation on the fundamentals, selection, and optimization of ART treatment protocols including the impact on ART pregnancies	Task Statement
REI4.4.B	Demonstrate knowledge of, recognize indications for, manage complications related to, and provide counseling/consultation on transvaginal ultrasound-guided oocyte retrieval	Task Statement
REI4.4.C	Demonstrate knowledge of, recognize indications for, manage, and provide counseling/consultation on complications related to transabdominal ultrasound-guided oocyte retrieval	Task Statement
REI4.4.D	Demonstrate knowledge of and provide counseling/consultation on embryo transfer guidelines	Task Statement
REI4.4.E	Demonstrate knowledge of, manage (anticipate), and provide counseling/consultation on difficult embryo transfers	Task Statement
REI4.4.F	Demonstrate knowledge of, recognize indications for/contraindications against, manage complications related to, and provide counseling/consultation on ultrasound-guided ovarian cyst aspiration	Task Statement
REI4.4.G	Demonstrate knowledge of, recognize indications for, manage complications related to, and provide counseling/consultation on paracentesis/culdocentesis	Task Statement
REI4.4.H	Demonstrate knowledge of, recognize indications for, and provide counseling/consultation on embryology laboratory techniques (eg, ICSI, assisted hatching, cryopreservation, extended culture, embryo biopsy, implications for ART pregnancies)	Task Statement

REI4.5	Fertility Preservation	Subcategory
REI4.5.A	Demonstrate knowledge of and provide counseling/consultation on options for fertility preservation	Task Statement
REI4.5.B	Demonstrate knowledge and interpret the results of diagnostic testing, and provide counseling/consultation on implications for fertility preservation (eg, ultrasound, ovarian reserve markers)	Task Statement
REI4.5.C	Demonstrate knowledge of and provide counseling/consultation on expectations for fertility preservation in the context of age and comorbidities (planned/elective or medically indicated)	Task Statement
REI4.5.D	Demonstrate knowledge of and implement modifications to conventional ART protocols for cancer patients (eg, aromatase inhibitors to suppress estrogen levels, random start protocols to minimize delay)	Task Statement
REI4.5.E	Demonstrate knowledge of and provide counseling/consultation on fertility-sparing gynecologic surgery (eg, trachelectomy, cystectomy, unilateral oophorectomy)	Task Statement
REI4.5.F	Demonstrate knowledge of and provide counseling/consultation on surgical options for fertility preservation (eg, ovarian tissue preservation, ovarian transposition, experimental ovarian and uterine transplantation)	Task Statement

REI6.1.A Demonstrate knowledge of the basic science of genetics, epigenetics, and genetic testing Task Statement REI6.1.B Demonstrate knowledge of and interpret inheritance patterns of genetic disorders Task Statement REI6.1.C Demonstrate knowledge of the spectrum, limitations, and indications for preconception genetic carrier screening Task Statement Demonstrate knowledge of the spectrum, limitations, and indications for preconception preimplantation genetic Task Statement Task Statement	REI6		Primary Category
REI6.1.B Demonstrate knowledge of and interpret inheritance patterns of genetic disorders Task Statement REI6.1.C Demonstrate knowledge of the spectrum, limitations, and indications for preconception genetic carrier screening Task Statement Demonstrate knowledge of the spectrum, limitations, and indications for preconception preimplantation genetic Task Statement	REI6.1		Subcategory
REI6.1.C Demonstrate knowledge of the spectrum, limitations, and indications for preconception genetic carrier screening Task Statement Demonstrate knowledge of the spectrum, limitations, and indications for preconception preimplantation genetic Task Statement			
Demonstrate knowledge of the spectrum, limitations, and indications for preconception preimplantation genetic Task Statement	KEI6.1.B	Demonstrate knowledge of and interpret inheritance patterns of genetic disorders	lask Statement
REIG.1.D I Lask Statement	REI6.1.C		Task Statement
	REI6.1.D		Task Statement

REI6.1.E	Demonstrate knowledge of the spectrum, limitations, and indications for preconception antenatal genetic testing	Task Statement
REI6.2	Application of Genetic Screening and Testing to Patient Care	Subcategory
REI6.2.A	Demonstrate knowledge of, interpret, and provide counseling/consultation on preconception genetic screening	Task Statement
	results and implications	
REI6.2.B	Demonstrate knowledge of, interpret, and provide counseling/consultation on genetic testing results and implications	Task Statement
	as they relate to female and male infertility diagnoses	

Task Statement

Demonstrate knowledge of, interpret, and provide counseling/consultation on preimplantation genetic testing results

REI6.2.C
